## Technical Data

### Trinity L1F Zoysiagrass Characteristics

- Extremely fine textured zoysiagrass.
- Soft texture and feel.
- Erect, upright leaf-blade orientation, ideal for golf courses.
- Shade tolerant.
- Low fertility requirement.
- Less thatch.

### Improved Plant Vigor

- Wear tolerant.
- Shade tolerant.
- Low water requirement.

### Cultural Practices

- Should be maintained at 1" mowing height or lower.
- Low fertilization requirement.
- Transition zone stretches from California to Pennsylvania.

### Certified Purity & Uniformity

- Zeon is licensed in the Southeastern U.S., Hawaii, and Australia exclusively to The Turfgrass Group, Inc. and its sub-licensees.
- Trinity is available only through a select group of licensed certified producers.
- Trinity is grown & sold under a rigorous set of rules & guidelines designed to promote on-going quality, purity, and uniformity.

### State Certification

- Certification is the only method of assuring the consumer is receiving the variety they purchased.
- Trinity can only be produced and sold as a Certified turfgrass variety, unlike many other varieties.
- Certification agencies in each state inspect all Trinity production fields regularly, protecting the interests of the consumer by providing a third-party system of quality control.
